Precision Is Confidence

INNOVATIVE
• State-of-the-art proprietary handpiece, motor and needle designed for quick, clean and precise needle insertion
• Improved comfort in every pulse

EFFECTIVE
• Eliminates the guess work - Thousands of clinical tests provide optimized protocols for each skin type and age
• Only system to measure delivered energy

INTUITIVE
• Proprietary impedance feedback and control system ensures precise and comfortable energy delivery

DEPENDABLE
• 7 years of experience and millions of dollars invested in every pulse
• Expandable and upgradeable platform

Precise Coagulation Right Where You Need It.

Coagulation results in the regeneration of collagen and elastin, improving scars, skin texture, wrinkles and laxity anywhere on the body including:

• Face
• Neck
• Axilla

• Abdomen
• Arms
• Knees and thighs

First generation devices delivered uncontrolled and imprecise energy

Precise energy delivery achieves the level of coagulation change for long term visible results.
